### **Narrative Summary:**

**THE CONSUMER CONFIDENCE REPORT (CCR) RULE:** This rule is an important part of the 1996 Amendments to the Safe Drinking Water Act (SDWA). The CCR final Rule, which became effective September 18, 1998, provides a framework that water suppliers will use to give consumers information on their drinking water. Under 40 CFR Part 141 Subpart O, all community water systems (CWSs) were required to provide their customers with an annual quality report or CCR by October 19, 1999. Some CWSs have delivered the first round CCR reports to their customers but some did not comply with this rule. The majority of the enforcement actions listed as SDWA violations are the water systems that did not comply with the first round CCR rule and were targeted for the administrative orders by EPA Region 6.
